

CAT50 Morse Taper Holders

- Precision ground Morse taper
- Morse taper pocket held to .0002" accuracy for the best locking fit of the Morse shank
- AT3 or better shank taper results in accurate, rigid toolholder-to-spindle mount
- Less tool and wear replacements means less scrap
- Fully ground flange and V-groove is easy on tool changers for less spindle and changer maintenance

- Notes:
- Not for high speed use
 - Must be cleaned before use and degreased for proper assembly
 - Not to be used with coolant thru the spindle
